

# REVGAS – “Rev up your savings!”

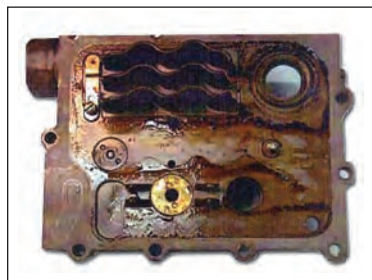

It's no secret that properly maintained propane forklifts are economical, operate with low emissions and can be environmental-friendly.

Revere Gas is the area's exclusive supplier of an improved propane formulation designed specifically to improve the operational characteristics of forklifts. Tests prove that with only the first cylinder of **REVGAS** you will see dramatic results. **REVGAS** can eliminate OSHA-related complaints by causing REDUCTIONS in:

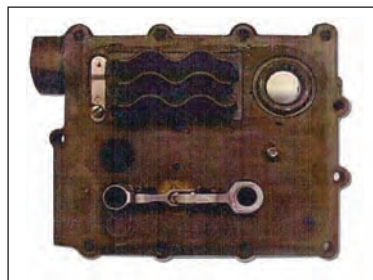

↓ Nox   ↓ CO<sub>2</sub>   ↓ CO

**REVGAS** will also MINIMIZE pre-combustion while IMPROVING fuel economy.

**REVGAS** neutralizes heavy end buildup and reduces particulate emissions, reducing engine maintenance down-time.

A level 3 vaporizer,  
BEFORE using REVGAS

And AFTER using REVGAS
